**Today at Apple**

Apple Camp
at Home

Experience the magic of Apple Camp with fun projects for students to explore in or outside the classroom. Guided by an easy-to-follow Activity Book, Campers can make a video to spark positive change, design a space for happiness and learn to code a helpful robot using iPad. Great as a class activity or homework adventure. Share your class' creations using #AppleCamp2020.
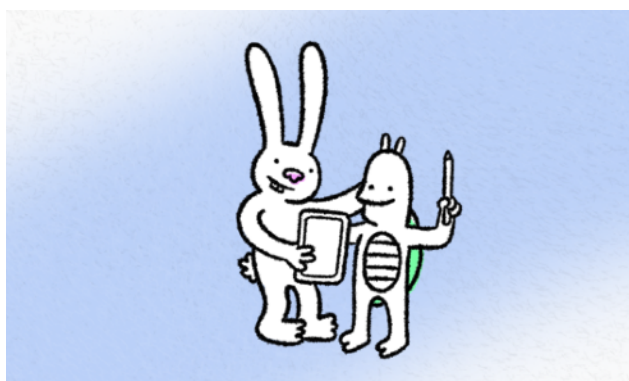

Download the free Activity Book >

Three fun projects to explore

Video Project: Spark Positive Change

Campers can create a one-minute video to share a positive message for change in their local area.

Art & Design Project: Design a Space for Happiness

Kids will brainstorm and draw a design for a dream space that brings happiness to their family.

Coding Project: Code a Helpful Robot

Campers will code a helpful robot using basic programming skills in Swift Playgrounds.
