# MLD Support Guides
Digital inking using the Mini PC
Snip and Sketch - On screen annotation
Step 1

Click on the **Windows Ink Workspace** icon in the Taskbar.

Step 2

Select **Fullscreen snip**. This will take a screenshot of the content that is on the screen.

1:02 PM
26/09/2022

Step 3

Use the buttons above the fullscreen snip to **draw on, highlight or crop** the image.

Once you are finished
- **save** the image to a location of choice
- **copy** the annotated image and **paste** into another application.
