MLD Support Guides
## Sound management
Check MLD sound in three key places

Check sound on the panel

Use either the volume **controls on the MLD** or the **remote control**.
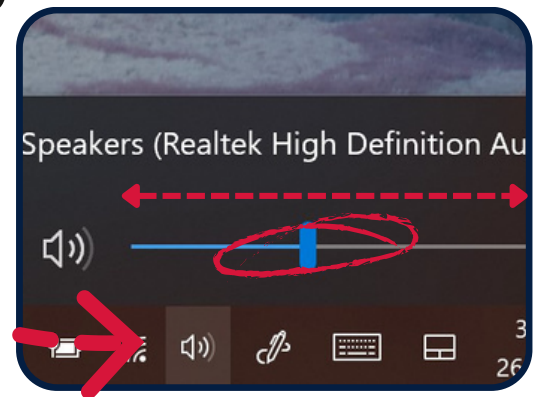

Check that the panel is not on **mute**.

Check sound on the Mini PC

Click on the **volume control icon** in the bottom right hand corner of the taskbar.

This is indicated by the **speaker icon**.

Use the **slider** to adjust the volume.
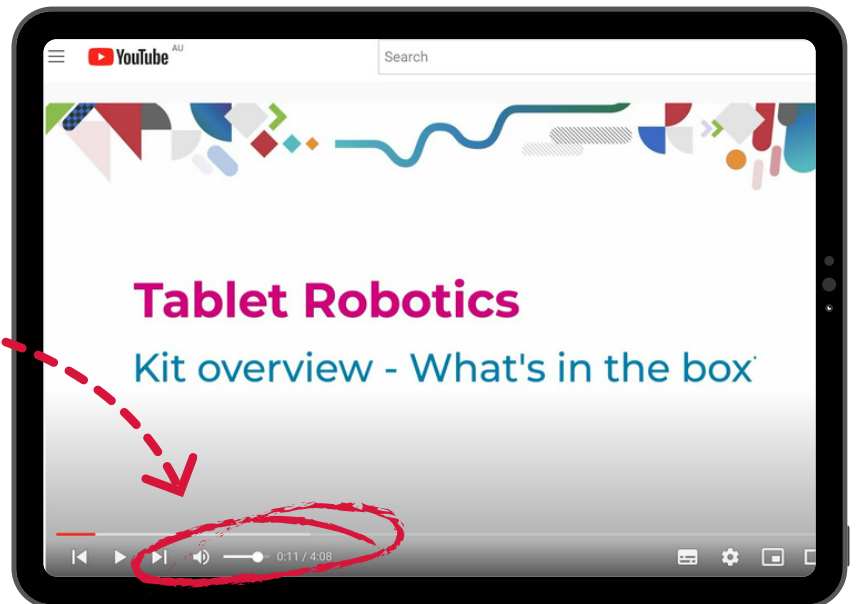

Speakers (Realtek High Definition Au

Check sound in the application

Some applications also contain sound controls within them.

Within the **video player window**, find the **volume slider** and move to the desired level.

Don't forget to check if **mute** has been activated.
